that yhwh is numerically one is foundational to the theology of the hebrew bible christian theologians historically have affirmed that there is a more fundamental type of oneness attributable to god god is one not merely in the sense of being the only god but also in the sense of being simple or non composite having no parts of any kind in this way god is said to be an absolute unity after a consideration of all the evidence barry d smith reaches the conclusion that there is no basis for ascribing simplicity to god the simplicity doctrine is not found in scripture and the traditional arguments used to establish it are unconvincing in addition the recent defenses of the simplicity doctrine prompted by alvin plantingas work does god have a nature are unsuccessful it should not be thought however that the rejection of divine simplicity means that by default god must be conceived as composite not even as a perfect composite with maximally great god making properties rather there is a third option god should not be conceived as either simple or composite the question of in which mode god has attributes or exemplifies properties should be set aside

pink d 1953 is noted for his independent thinking he was so well read and had such a photographic memory that he could give you the page and column in a host of reference works and commentaries this book shocked the christian world in 1919 when he published it he fiercely defends the sovereignty of god and all the cognate doctrines such as the doctrines of grace it is the book to give to those just after conversion and a prime book to give to anyone who defends the free will of man pink was a baptist preacher who held pulpits in england america and australia his early training was in scientology his conversion was instant and complete dedication to the cause of god and truth quickly became evident this early book by pink lays scripture end to end to prove god s control over all persons and events it is uncompromising and as such it raises the hackles on the necks of many new students of this doctrine persons who knew pink seldom objected to anything he taught because he could literally quote hundreds of verses of scripture verbatim on the subject under discussion this book may be overwhelming but it is certain that its many printings have been used of god to convince people of his sovereignty the banner of truth has

an edition of this book but they have abridged their edition by deleting the chapter on reprobation if pink were still alive he certainly would not have allowed this misrepresentation of his doctrinal belief that god both elects and reprobates as romans 9 21 23 clearly teaches it is an important stone to guide the steps of those who are not yet convinced of god s absolute sovereignty over all persons and events
